

Astronaut Presentation

84WG invite all Richmond Base Units to attend a special presentation by Prof Greg Chamitoff, who will deliver his perspective on:

- ✓ behaviours for success
- ✓ leadership and teamwork
- ✓ working in diversified, challenging environments
- ✓ mentoring
- ✓ the future

Prof Greg Chamitoff is a former NASA astronaut and engineer, who flew twice on the Space Shuttle and once on a six month International Space Station expedition. Last year, Prof. Chamitoff was appointed as the University of Sydney's Lawrence Hargrave Professor of Aeronautical Engineering. In this role, he is leading a new push to expand Australia's contributions to the global aerospace sector.

Date: Wednesday 29th July, 2015
Time: 1230-1330 hrs
Venue: Base Cinema

Prof Chamitoff's experience as a mechanical engineer, NASA astronaut and mission specialist on several space missions promise an inspirational presentation to Richmond, AMG and Defence Industry partners that aligns with our combined core business of mechanics, engineering, aviation and aerospace.

****Numbers are limited - see your Unit CO for seat availability****
